Projects / Papers Presented

Digital Marketing Agency Website
http://www.oceaneek.com/
November 2022

It is a Website of Oceaneek Digital Marketing Agency , created by me using bootstrap5 , html , css , JavaScript. It took me 3 days to made this website and learned many tech stacks during the making of the website.

Rock paper scissor game
https://debsgame.netlify.app/
January 2023

it is made using vanilla js, html, css. it is a rock paper scissor game which I made for fun and practising my concepts.

Super Notes- the note taking and daily inspirational webapp
https://sprnote.netlify.app/
April 2023

super notes is the note app where one can take down notes sorted down by dates. there is a daily inspirational quotes section for seeing inspirational quotes and a A/C section which now work in progress. the app is continuously developing by me.

TO-DO Web App
https://deb-todo.netlify.app/
April 2023

this is a web to-do listing app where user can define and sort lists by business and personal . It is made in the purpose of learning new javascript concepts and web developement

Additional Information

I am a frontend Developer learning React js , node js , love web development ! know Git and GitHub very well !! I am learning DevOps and tools i.e. Docker, Kubernetes etc. Going to attend the GOOGLE CLOUD COMMUNITY DAYS KOLKATA 7TH MAY, 2023 I have also done digital marketing internship as the leader of research team for 3 months! Collabed with that Company for making websites for them in the past! then, Co-founded Oceaneek digital marketing Agency to offer Web development services and digital marketing and SEO services ! Now, I want to do internship in web development and coding to gain experience and real life job exposure in this field! and do web development as profession! I have my own Youtube channel and podcast on youtube where I interview experts topics related to mental

health issues , linkedin content creation and many social problems and issues and programming topics. I have done many web dev projects & above mentioned those are some of them !! many projects are work in progress, some of 'em are for my personal ease life!! Currently working on a react based portfolio website and an E-commerce website !! Currently I am only focusing on React js and MERN stack development !! and doing projects to improve my skill.
